Brick Pomeroy's picture, the Re-publican says, "made by George E. Perine, is to be the finest engraving ever made. Wherever people would have a machine to frighten rats, there will be great demand for it. Brick is sound-all sound and fury, but not handsome. He loves to make a noise in the world, and his picture, we suppose, was engraved on gong metal instend of steel. Brick isn't so conspicuons a character by half, as a few years ago, and something should be done to make people talk. When shall we have the picture." Brick will avenge this badinage. The Republican will soon have a "brick in its hat."
